

GKD: Three highlights for FILTECH

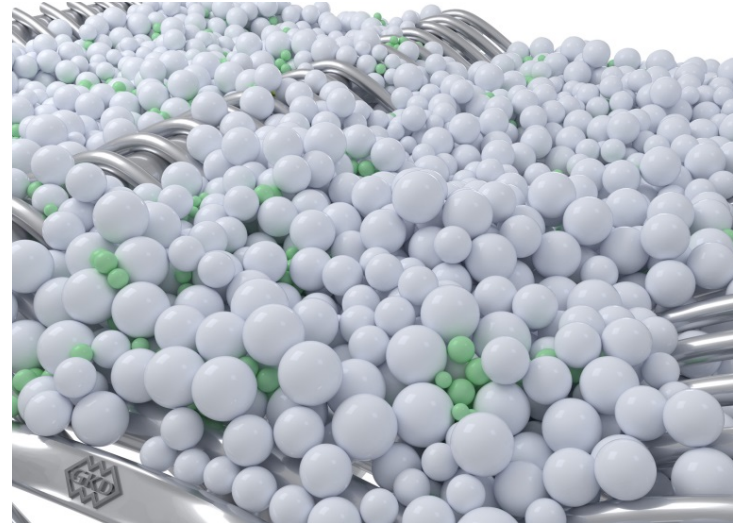

Lasting process success thanks to leading filtration expertise from a single source

WORLD WIDE WEAVE

Picture 1: With its Optimized Dutch Weaves (OT), GKD has begun the next chapter in the success story with further aperture gradations between 15 and 5 μm .

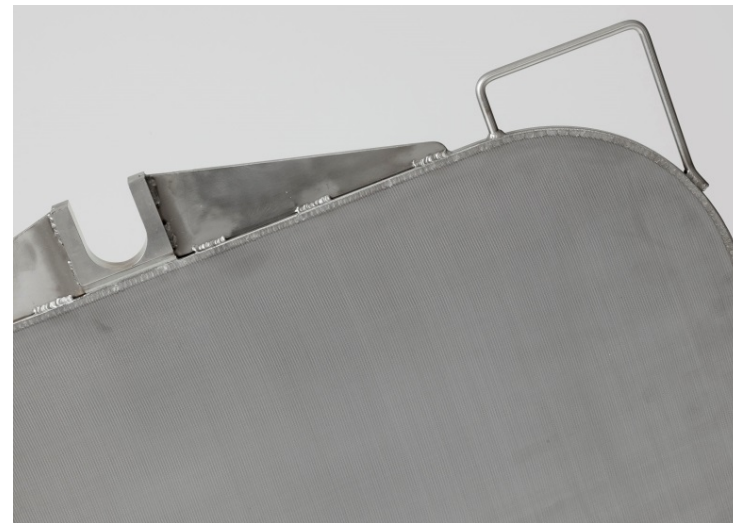

Picture 2: Porometric mesh from GKD is currently considered to be one of the best-performing filter media there is in process and ballast water filtration as well as in oil and gas filtration.
