

GKD: Smart Solutions Made of Metal Mesh

Proven practical examples form the basis for discussion

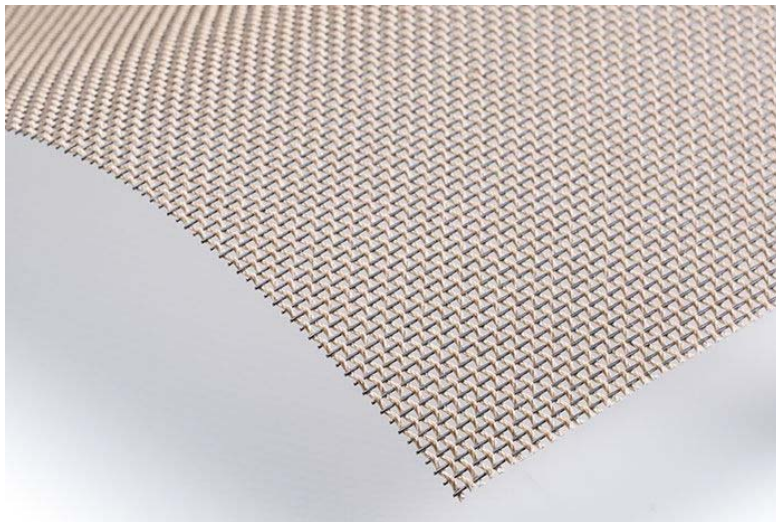

WORLD WIDE WEAVE

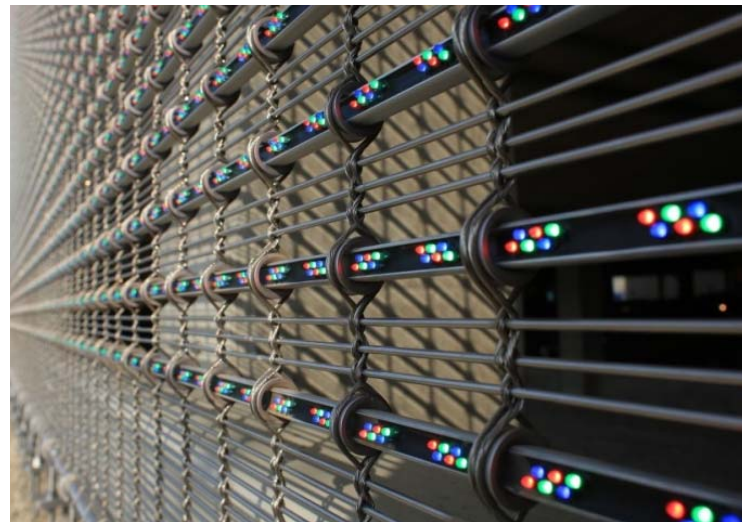

Picture 1-5, 7 © GKD

Picture 6 © GKD /Immotion

Picture 1-4: By precisely combining materials and selecting the weave type and technique, GKD gives the basic structure smart factors that go far beyond the performance spectrum of a normal mesh.

Picture 5: Smart mesh designs such as glass hybrid belts are good examples of GKD's weaving expertise.

Picture 6: GKD's weaving technology makes it possible to weave in LED strips as in the *Mediamesh* architectural system.
