

WORLD WIDE WEAVE

Higher returns, lower costs: Digestate drying

Two thirds less residual moisture due to compact belt dryers with woven process belts

Picture 1: Each week at least one compact belt dryer leaves the factory in Mühldorf am Inn.

Picture 2: The complete prefabrication takes place at the in-house facility.

Picture 3: The drying containers are weatherproof, highly versatile, robust and quickly available.

Picture 4: According to the required belt length, the control and exhaust air units are located either inside the container or in an additional container superstructure.
